

Meritor Part

Meritor Parts - The Meritor Company is a leading global supplier founded upon one hundred years of tradition of service and quality. Meritor focuses on integrated systems together with several modules and components to the original machine makers and aftermarket equipment within the industrial and transportation sectors.

Meritor prides itself in the company's distinctive energy and thinks that this particular energy contributes to their competitive advantage within the worldwide operations. The business values their customers and would like to guarantee their success while anticipating their different needs. Meritor begins with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring more than 11,200 individuals, Meritor encourages collaboration and innovation amongst a team of experienced experts.

By only hiring future focused employees, Meritor strongly believes these top-caliber workers would be able to quickly adapt to changing surroundings and demonstrate the performance and commitment considered necessary so as to attain results in the competitive materials handling trade. The company empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides all of their staff different opportunities for professional and personal development.

Their Advanced Engineering team is at the forefront of parts and system engineering that include drivelines, axles, suspension and braking systems designed for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is also responsible for supporting the requirements of their international engineering employees.

The Quality team at Meritor is a customer-focused and dynamic group which is committed to ensuring optimum progress at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 countries.

They have their supplier network which is specially situated to support the growth of the business. Each and every regional team has globally supported quality systems, initiatives and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making within each aspect of the business. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is even included transactional Green Belts who apply Six Sigma tools to business processes and apply lean techniques.
