

Clark Forklift Part

Clark Forklift Parts - At present, there are at least 350,000 Clark lift trucks performing worldwide, and more than 250,000 operating in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specialized items fabricated for 20 exclusive brands of lift trucks and automated equipment. Your regional Clark Dealer is your complete source for availability of all your components requirements provided by Clark Totalift.

Clark has a phenomenal Parts Distribution team. The parts warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Globally, Clark has one of the most outstanding supplier support networks. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional dedication to safety is at this time a customary feature on every lift truck.

Clark has a unyielding goal to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its manufacturing plants. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental limitations, thus placing them in a prevailing industry position.

Clark has chosen the extremely economical and beneficial structure of "Lean Manufacturing" for its assembly facilities and use of resources. This system was developed to acknowledge the most efficient method of manufacturing plant management and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing expenses. The contemporary value engineering agenda combines progressive product improvement and delivers superior consumer support and service within the industry.
