

## Electrical Part for Forklifts

Forklift Electrical Parts - Forklifts may be specifically labeled to be utilized in hazardous places. A labeled forklift denotes the design has met the minimum requirements of ANSI/UL 558 meant for engine powered trucks or ANSI/UL 583 intended for electric forklifts for the type of label attached.

The application for labels intended for lift trucks could be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Areas of Use, Maintenance and Operation, and Type Designations. Consult your local insurance provider and Fire Marshall for additional info regarding the permitted uses of industrial powered trucks in your application.

If the particular lift truck meets the outlined standards, labels can be placed. A labeled lift truck would show the type of designation located on the nameplate and will have a properly corresponding label attached.
